

# Fire Fighting

Pumps, Packages and Systems

UL/FM, NFPA20 and EN Norms

A Division Of Gruppo Aturia S.p.A.

RELIABILITY

# Design, Manufacturing and Testing in Northern Italy

Audoli & Bertola is one of few European manufacturers and the sole in Italy with FM approved pumps from 500 to 5000 USGPM both in vertical and horizontal split case configuration.

Audoli & Bertola has developed several projects with its range of high-flow pumps in Off-Shore, Refineries, Petrochemical, Chemical, Power-Gen, Heavy Industry and Logistics sectors.

# UL/FM, NFPA20 and EN SYSTEMS and PACKAGES

Audoli & Bertola can design, manufacture and test packages and systems for fire-fighting.

Horizontal (end-suction, split case) and vertical turbine pumps can be integrated in soundproof canopies or containers.

Projects in accordance to the main international standards.

EN 12845

# Vertical Turbine Pumps & Systems Listed <FM> since 1993

Audoli & Bertola entered in Gruppo Aturia on 2003 became the Fire-Fighting Division dedicated to design and manufacture Fire-Fighting pump sets and systems according UL/FM, NFPA20 and EN norms.

# Horizontal Split Case Pumps & Systems Listed <FM> since 1983

Audoli & Bertola, thanks to the integration with Rotos, extended the range of horizontal split-case pumps taking advantage of the previous experience: Rotos was approved by FM since 1983.

# Proven Service Specialized After-Sales Team

Audoli & Bertola has a dedicated team to support commissioning, start-up and maintenance often required by EPC and/or end-users.

More than 500 installations visited during last 3 years.
